Miami 09/03/1996

Your Holiness,

I am the founder and the leader of a religious organisation 35 000 members strong worldwide and present in 84 countries. My book is a world best seller with more than 1 million copies sold in 22 languages.

My assistants have been trying unsuccessfully to organise a meeting for you and me for years either in Japan where I go every year or in Canada where I stay when not travelling around the world. Sometime the barriers built by our assistants to protect us make us miss important meetings.

It is a great honor for me to be alive on this planet while you are here to.

We are fanatics of non violence and your exemple as the one of Gandhi are among the most importants we use in our teaching.

We are also working for the rehabilitation of the swastika which as you know because it is a part of your tradition, is a peaceful symbol but because the nazis used it in a wrong way now it is view in occident as a criminal symbol.

It would be a great help if one day you could wear it and explain to the western world the real meaning of the swastika . Our members and thousands of Bouddhists in occident would be relieve to be able to wear this symbol without being assimilated to neo nazis and even sometime phisically attacked for wearing it...

In the name of our 35 000 members I want to show you all our support in your fight for ending the illegal military invasion and annexion of Tibet by China.

I speak publicly everywhere around the world to support you .It's a shame for occidental powers to free Kuwait from Iraki occupation and not moving one finger to free Tibet from Chinese occupation.

But there is oil in Koweit...And in Tibet only a peacefull non violent civilisation...This is the reason. How can western countries continue to speak about freedom values after this deny of justice ?

I humbly ask you the privilege of having a meeting with you to give you the message I received from the Elohim, these people from space who did create life on earth a long time ago using DNA and genetic combination and which all ancient religions called "God" which ethymollogically means "light in the sky"...

With all my respect and love,

RAEL
President and Founder
