" Think of their eyes ... " Rael

Editorial

Sweet Angels of the ground, dream of our Fathers, think of their eyes, our role in the Universe is invaluable it is a humble gift of conscious and universal love.

Angel's Feathers is the link between us all, turned, towards the women of the society, offered, to our Fathers and marvelous gift to the infinite.

Through it, we read, drink the words of Our cherished Prophet to better imitate and love him, through it we learn to better serve our Fathers and their Prophets, through it qualities of the Angels are discovered, deeply explored, through it we go and meet new female universes and offer them this message of love, through it we listen what animates our Chosen Sisters, through it we pray, through it we exchange our questions, our desires and listen to the higher answers of our sisters Angels and Archangels.

The communication is the engine of the action, the better our communication will be, the better we will be efficient and harmonious.

Angel's Feathers is an excellent means of action and communication between us, and it depends on us to have it filled of all the angelic qualities loved by our Fathers the Elohim.

Good reading.

### 1. Words of our Beloved Prophet

Words brought back from October 7th  
by Jade E

"The more I act by my thoughts and the love  
which I release, the more I act on Others "  
RAEL

October ,7th, in Valcourt, I was there! This is why I  
wish to share with you the words of our Beloved  
Prophet. We do not think often enough of the  
Elohim, Raël says :

" We are tempted to think of the Elohim  
when everything goes wrong, for our  
sorrows, it is a pity... We should think of the  
Elohim when everything goes well, and  
dedicate to them our best moments, it is an  
act of conscience.

We should think of our Fathers when we  
want to jump of joy, to cry in front of a  
landscape, to laugh like a child...

You cannot imagine what is the look in the  
eyes of the Elohim, all the greatest  
tenderness, the greatest delicacy, all the  
greatest respect that you can imagine is  
nothing compared to the true look in the eyes  
of the Elohim...

You are also all that, there is the same thing  
in your eyes, but life made you forget about  
it...

To think that each one of us is important is  
fundamental for their mission, when you forget it, try  
to imagine the look in the eyes of our Fathers and  
think of their EYES."

This same day, we took an additional step towards the  
embassy when our Beloved Prophet was interviewed  
by 2 Jewish journalists sent by Leon.

For the first time, October 7th 54 AH, the  
last of the Prophets could finally speak to the  
Jewish people!

I hope to have transcribed the most accurately  
possible the words of our Beloved Prophet and I send  
you all my love.

Jade

A change for Chosen angels

Before, a Chosen who had abandoned her pink  
feather had to wait seven years before being able to  
ask to be a Chosen again, but now this period is  
reduced to one year!

### 2.Serving the Elohim and their Prophets

My dear Prophet whom I love  
You, who delivered me from my chains  
Here you find my love in a poem

Raël, I admire you so much  
My prophet whom I honour

Every day I think  
About this major privilege

That I could walk  
On this ground touched by your feet

From the sky, you are the nicest gift  
Who wraps us up with the halo  
Of brightening Conscience from the very  
High

Rael, you are my guide of infinity  
The one who gave me life

Because before I existed  
But now I know

Why I am on this earth  
It is to welcome our Fathers

You bring us the light  
And also the keys which open all doors  
And you transport us to the stars

Rael, I am humbly at your service  
Being a rose from your garden and a novice

Thank you for your wise patience  
When I show few conscience

I praise the day when you were born  
Because hope was given to us

Happy Birthday Rael,  
My prophet from the sky  
You, the one who is eternal  
i love you

### 3. Angelic qualities

Purity is like white snow, like the laughter  
of a baby who laughs because he is alive.  
Purity is in the honesty of human being, in  
his listening to others, in the prideless look  
of a child who is, only because he lives in a

universe of infinity which is itseif composed  
of infinity.

Purity is fragile, it is this glass filled with  
clear water which can become cloudy  
if only one drop of black ink comes gliding in it,  
conscience will avoid you those impurities.

Let you lead by your feeling, it is the guard  
of your purity, the fertilizer of your inner  
garden, of which you are the gardener.

Purity should be cultivated every day, it's a  
delicate work which requires patience and  
discipline.

Purity is the seed of a day and the rose of a  
whole life full of an eternal love, your love.

Karine

### 4. Inciting vocations

You, whom I don't know yet, how could I  
meet you and offer you this wonderful  
message of love?

HOW?

By enlarging my circle of acquaintances,  
which will enlarge my circle of friends,  
which will itself enlarge my circle of  
intimate friends in which I'm waiting for  
you...

IN WHICH MANNER ?

By increasing the pleasures in my raelian  
life, going out dancing, or bowling, or ice  
skating, or being part of an association of

sport, or an artistic or humanitarian association...

## WHY ?

Because in this way I meet a lot of women to whom I can talk about the messages and about the Angel Order of Rael. "

I open my raelian life to the outside and I am the image of the messages by imitating my cherished Prophet Rael. "

5. Chosen of the Elohim
-------------------------

To be a Chosen of the Elohim

Deciding to be a Chosen is a great and conscient personal choice,  
Deciding to be a Chosen is deciding not to have sexual partners,

Deciding to be a Chosen is to restrict one's sexuality but not to stop it,

Deciding to be a Chosen is loving without expecting anything in return... whatever it might be,

Deciding to be a Chosen is living a different level of love.

Deciding to be a Chosen is rising unceasingly into one's spirituality,

Deciding to be a Chosen is above all giving one's life to the Elohim and to Rael,

Living as a Chosen is praying all time,  
Living as a Chosen is thinking one is a Chosen all time,

Living as a Chosen is never forgiving that Rael is among us,

Living as a Chosen is never forgiving that I am a work of the Elohim,

I am a Chosen and my life has changed,  
I am a Chosen and my self has changed.  
I am a Chosen and the look in my eyes has changed, I am a Chosen and I am,

I am a Chosen and I am aware of the traps due to my choice in order to welcome them serenely,

I am a Chosen and the way to remain serene is to develop a discipline, the discipline of a Chosen,

The discipline of a Chosen is giving love to the others but also to myself, distributing my love to all the people I meet, without restriction and being aware that I will not have anything in return,

I am a Chosen and I am here for all that! The Elohim made me into this tool of love ;

Today, September 30th, anniversary day of my beloved prophet's birth.

I dedicate this instant of prayer to the being who was the first to be chosen,, who is our model.

The being who chose to give his life to his Father who is in the sky.

The being who gives and gives back his love without restriction, with all his conscience, with all his being, without expecting anything in return.

I choose to dedicate my life to this being full of love and inspiration and I choose to imitate him !

6 Prayers and meditations

What is prayer ?

One day, someone endowed with a wisdom wrote "You pray when you are in distress or when you need something; you will also pray when completely and in, your days of plenty ".

You should often pray, for prayer is a hymn to bliss.

Prayer is like a temple, if you only enter this temple to ask something you will not receive. Prayer is a present, a gift you offer to the Elohim, it is a flower from your inner garden, it is the most beautiful one. It is rich in colors, pleasure and feeling of infinity.

Feed back of Shizue's words at the  
angel's meeting in Montreal.

During a reunion in Montreal Superior  
Angel Shizue told us how huge is the  
importance to read again and again the  
message of the Angel Order and the prayer  
everyday, and also to read again the  
message of December 13th 51 AH.  
The details in this messages are numerous.  
Among themat the beginning of the  
message of the Angel Order, it is mentioned  
that" Time is passing and the Great Moment  
is ineluctably coming... Our arrival is for  
soon". So the first thing to do is to prepare  
ourselves. And from that point, we can  
discover what we can do for our Beloved  
Prophet and our Creators.

And she added that it is our choice to be  
angel, for the Elohim ask us whether we  
want to serve them. When we read the  
message of the Angel Order and that we  
decide to become angel, it is because we  
want to give more of ourselves .

We all have talents. So what can I give to the  
Angel Order and how can I help Rael ? We  
always have to seriously ask us these 2  
questions. We must perform concrete actions  
for the Angel Order and for Rael. --

She also asked us some pertinent questions  
to help us to discover our talents and what  
we could offer to Rael. --

Since we are angels: is there anything changed in our  
personal lite ? Is there anything changed to our Angel  
life? And as an angel what would I like to do for  
Rael?

" Think of their eyes ... " Rael

She also said we should always wear our feathers in all occasions (celebrations, meetings ,etc.) and even outside the raelian activities if we like.

Rael mentioned to the French Angels that from now on, every time he will see us without our feathers for any reasons, he will take us one feather off, and if we only have one feather, well we will not have any feathers.

We must wonder why the Elohim ask us to wear these feathers, the number the color. Feathers remind us to be more feminine, that we are Angels, that we can improve things, and that we can help other women

"To be better beings of light "

### ★ The thought, the being

Our Beloved Prophet, you told us, this summer, that the thought was attached to the past and was keeping us away from the being... Does this means that one should not think any more?

It is a question of priorities and balance.

Intern and Strictly Confidential News Letter of the Angels' Order of  
Rael  
November 28th, 54 A.H ~ N°19

"To be angel is to be illuminated..." Rael

As well as one cannot spend time eating or drinking (for that would destroy our organism), it is not wise to spend time thinking. When one eats, one does not drink and when one sleeps, one does not pray... It is necessary to keep a balance. To think is useful, of course, but it should not be all the time, because it is not to be.

It is a question of priorities : one can choose to take time to eat as well as to take time to think.

The society of today believes that the intelligence is in the thought: it is mistaken, the intelligence is in the being. When one thinks one is not. The thought is useful, but one should not only think.

The more one is not in the thought, the more one is in the being.

The more one is, the faster and the righter is our thought.

The more one thinks, the more our thought is distorted by the analysis, the judgement.

One then loses the panoramic vision of the reflection.

One can be while thinking : I call that the supra-conscience. One is and says to oneself: "There, I need to think ", and this, while keeping to be presently. When one has the panoramic vision, one loosens its tension. When one is in the thought, one focuses. When one is annoyed, one sees less...

The thought cuts intelligence.

We must keep the freshness of the children. We are poisoned by people who thought small

" I am very happy that you develop this religiosity related to the Being. The Elohim are happy that you are connected with them. Try to make them feel that you are with them. "

The order of Angels is a strategy, it is very important.

We must always be ready, to live each day as if the Elohim would arrive tomorrow.

IF IT WAS TOMORROW...

It is necessary to be aware in our heart that it is tomorrow.

To be angel is to be illuminated.  
We are responsible for our illumination

Intern and Strictly Confidential News Letter of the Angels' Order of  
Rael  
November 28th, 54 A.H ~ N°19

"To be angel is to be illuminated..." Rael

\* Illumination comes from the Elohim.

Light always comes from the Elohim, but everyday light comes from ourselves.  
We can be surrounded by light and still be dark, be down in the middle of a field of roses...  
"They have got eyes but they can't see... They have got ears but they can't hear..."

Material wealth brings unawareness: Because multi millionaires are not.

Some people coasted along prophets but didn't understand while being close to the light.

We have to use our senses. Not to use our senses is senseless.

How is it possible to extinguish while being so close to the light? You dare being sad, and have doubts ?

Light is in us , and comes from the inside.

If someone says while talking about our beloved prophet: " He is only a man" we have to intervene : " No he is not only a human being, he is the Elohim on earth. We have to take advantage of the light and the spirit that he brings."

Humility when talking about the person of Rael can only come from himself.

Only Rael can talk about himself saying : " I'm just a man.", nobody else.

Rael does nothing like everyday people, he does everything in a religious way: One can go to the water closet in a religious way...

The angels should be the caretakers of this light.

The Angels should be the caretakers, the reminders of light and conscience.

They should remind all these things to Raelians. The guides, the Angels and the Raelians should be more aware of that. Human beings need recalls, Raelians too. We are called by something bigger. We forget too often what we are experiencing and who we are experiencing with: So Let us learn to recall that between ourselves, with love and kindness. Let us learn as well to thank those who recall us: " Are you really in the light? "

We permanently have the choice between to be or not to be. Golden ribbons are elected to be golden ribbons. Golden ribbons make a personal choice of sexuality or non sexuality.

## ANGEL'S NEWS LETTER - ANGEL'S FEATHERS

Intern and Strictly Confidential News Letter of the Angels' Order of  
Rael  
November 28th, 54 A.H ~ N°19

"To be angel is to be illuminated..." Rael

We should be eternally young, as they created us because the creation of the Elohim was not made to grow old. It's more beautiful to welcome them with what's most beautiful, thus the most beautiful and young raelian girls. They don't demand it. One can be any age, and have any level of conscience and be an Angel ... but, our ream spirit leads us to choose the most beautiful and conscious ones and to offer them on the day of the big come back. It's the oldest job to prepare the golden ribbons, to illuminate them for that wonderful day. They will be a wonderful gift, representative of this humanity.

"Rael, are you the first Prophet of the infinite?"

"Since 1975, I am Prophet of the infinite. It's the most beautiful gift from the Elohim, telling us about the infinite. It's the first time the Elohim give such a clear message about the infinite. The other prophets had another message."

Before, technology wouldn't allow us to understand. Do we deserve to be anything else but dust ?

### \* The beauty of silence

The more people are of great personal worth, the most beautiful silence is. The more the persons who surround us have a beautiful conscience, the more silent they are. Keeping silent with people who have many brilliant things to say makes this silence of great value.

Let's not make the mistake of keeping talking all the time. We can spend 15 minutes in silence without asking any questions, when we gather to be with the Elohim. Let us spend 3 or 4 minutes in silence between each sentence.

When a sentence is bright, let's make it ours and let's give ourselves 5 min. before saying something as beautiful as it is.

This society of thinking leads to bla-bla-bla. It's very important to give ourselves silent moments (not when alone, it would be too easy) but when we are with others. There is so much light and love just in a presence. When we are too much info bla-bla-bla, let's take the others' hand in silence because silence brings peace.

#### \* A training for Beings of light

Speak only if what you have to say is more beautiful than silence... and silence is so beautiful!

If you are not, if you don't have light that comes from the inside, you are going to be unhappy, you are going to depress. It is difficult to be something else than alone. It is beautiful vvlief people that are alone, meet.

When one is not comfortable alone, it is because one is not. When one is well alone, after, one can go with others and one doesn't nearly speak. Those that bla-bla-bla... are not, and when they find themselves alone, they are not. They lack this light that comes from the inside. They sometimes hide it behind the conviviality. One can, in spite of ail, be with others, at the same time, and at the same place.

The truth then, it is to BE.. .with others. Speed is not contrary to harmony.

Harmony, it is to do as many things as possible, as quickly as possible, without stress, with pleasure. It appears in daily life, in action, when one is capable to make more and more things well while remaining in harmony. We can judge the harmony in the action and the religiosity leads us to the harmony, helps us to build the harmony.

Interior light always harmonizes.

Our challenge: to be in harmony, QUICKLY.

It is easy to seem intelligent in silence... only, the beautiful objective is to find some more beautiful things to say than silence, to find as many as possible...quickly. One associates harmony with what is slow: is a hummingbird less harmonious than a snail? All is harmonious!

We have all different speeds. It is up to us to do as quickly as possible, still in harmony. We must make an optimal utilization of the capacities of our brain. Being slow does not improve the brain.

Religiosity leads us to harmony.

Scientists discovered that: those who think that it is normal to lose their faculties, lose them more quickly. Those that don't want to undergo changes when aging remain younger. If we think that our motivity is going to remain excellent until our death, then we have good chances that it remain. Because of this, we must: make connections, have activities, and that, as quickly as possible, to think quickly, to speak quickly... quickly, well and in harmon)', to associate thought, word and action.

To be motionless, in the silence, at 100%. To live deeply the absence of thought, the communication with birds., to be then in depth in our activities.

### \* Hunting

Rael likes to have a contact with food, with everything he eats, be it an animal or a carrot : " We have to pull the carrot out very quickly too, if we don't want to make it suffer', he shoots the animal with a very religious attitude and he shoots only if he is sure, to kill it instantly, and not to make it suffer.

Life in itself implies the death of something else. It is very beautiful to only eat animals that did not suffer, but for now it is a luxury.

We must make sure that the food we will eat will not suffer or as little as possible. We must be the deer. Rael prefers potted plants to cut plants because it is a sacrifice to cut a rose, but it is also beautiful to sacrifice out of love.

### \* Dealing with stress

We must be aware of our body. A sigh, a yawn? We must stop at the first yawn. The body will adjust little by little. We must go step by step to gain more and more strength. This is true for everything: let's increase a little more each time, otherwise we might burnout. We cannot do a 43-km marathon without training, as for stress, it is exactly the same.

We must try to do as many things as possible, as quickly as possible, without stress. Physically, one can be exhausted, but one must get organised. All stressed up I am not totally myself anymore: harmony comes first.

When I feel that this is happening to me, I must admit it: " I'm tired, I don't think I'm efficient, can we re-schedule? Another solution is to disconnect. We are the only one responsible for our stress. "I hope that during the seminar, the little angels are going to do things very quickly and in harmony." said Rael.

### ★ Angels' Sex

The angels who will have the opportunity to welcome the Elohim must act as if it were for tomorrow, thinking about their sexual life as well.

They are waiting for their fiances from space, tomorrow. "If I were a woman I would be an angel that's for sure", Rael told us. To train, to beautify, and to enlighten the golden ribbons is a collective work. Love them, surround them, participate to beautify their inner self, as well as their appearances. Among yourself develop external beauty, beautify yourself together, and help each other. Let the golden ribbons inner beauty glow...let their make-up enhance their beauty ...

Older angels can give tips to golden ribbons... teaching them to love, TO give to those that we love. Teaching them, like geishas do, how to give pleasure.

You must learn as well how to give pleasure to oneself, to become an expert in self-love, an expert with vibrators, to be totally blossomed and autonomous. And how to give pleasure to a sexual partner.

We must work so that, moved by something even greater, we do not become paralysed by emotion (meeting with the Elohim as well as meeting with Rael).

Emotion must be a driving force for the passion of giving.

Let's develop ourselves in order to become experts and to make the Elohim happy.

## 2. Event: a dream training in autumn colors

From a report of the Canadian Angels' training, by O'rèv

**T**he sun is shining on autumn colours fading away, day after day.. Yes, it is a little chilly and The colours are falling on the ground, the branches are becoming bare... Today, the light focuses on she original light, close to Our Beloved Prophet...in our small angel's nest, in Valcourt.

First training of the year, we are thirty little angels gathered around our new leader for Canada, our delightful Sylvie C.

Angels and Chosens from Japan, Korea and New Zealand were present, as well as some angels from France, newly settled in Canada,.

The different colours of each one of us were a sign that the exchange of knowledge and experience was going to be useful to build and fulfill our beautiful mission, together.

Sylvie, our leader and animator for the weekend, gave us the tone by inviting us to be at the service of Our Prophet, to give him without expectation.

To make his life more beautiful, in giving oneself, without expecting anything in return. To give him even when he's not there.

Our Beloved Prophet's wonderful companion, Sophie, conducted part of Saturday afternoon meeting. She shared with us, her experience of different organisations in various countries. letting us know of the positive sides and informing us of the things to improve.

She also continued that the best attitude is not to expect anything from Raël. "We love him so much that we're expecting and even sometimes, we take some of his time (.../...) he's going to give us anyway. Sometimes we want to give ...but in doing so, we take instead."

As an example, she mentioned the little shows that we organise sometimes. "To give love, is very good, but when everything is prepared at the last minute, we're taking his time. It's a lack of respect to present him a show that is not completely ready. Better have an evening to be... with him, without a show, than taking one's time and one's love to present him performances that are not good enough for him.

Our most beautiful gift was to have Our Beloved Prophet among us, Saturday afternoon, after an interview he had given to a foreign channel (television)... and we did have the great joy of cooking for him, as well as the benefits of his presence. What a memorable evening for all of us!

Intern and Strictly Confidential News Letter of the Angels' Order of  
Raël

November 28th, 54 A.H - N°19

"To be angel is to be illuminated..," Rael

Sunday morning, we experienced beautiful emotions gathered around Syvive, who brilliantly helped us to be conscious of the small things that we still need to improve. The emphasis was put on the importance of team spirit, which we must cultivate in order to allow the golden ribbons, chosen by our Prophet, to be even more beautiful: more experienced and closer to him.

Following this, we got together for the contact with the Elohim, at UFOland, where the regional monthly gathering was held.

Our Prophet was present, what a joy!

To his suggestion, and under the impulse of Sylvie, we did have the opportunity to watch the TV broadcast from October 26th 54 AH, with Jean-Luc Mongrain, of Tele Quatre-Saisons. The seven minutes live interview with Rael was about the marketing of Top Model's eggs over the internet. Our Prophet had quickly sent a press release to the media to inform them of his support of this initiative.

Taking advantage of our meal to improve our skills to wait at tables, we did have the pleasure, under Anouchka's supervision, to serve the guides, part of our Order.

In the afternoon, a little Geisha named Sophie initiated us to the art of love.

We concluded this wonderful weekend with Sylvie's proposition of a meditation on self-love. She then, guided us towards the sky with her voice in a prayer dedicated to Our Creators...

Just before our departure from Valcourt, Our Beloved Prophet in his great generosity, distributed part of his hunting trophy to a few angels, deer meat, and even shared a few recipes.

Thank you to our Prophet to have enlightened us with his presence, and his words: thank you to Sophie, thank you to Syvive, for this unforgettable weekend.

1. JL Words of our Beloved Prophet

✓ **Angels and Media**

The existence of the Order of Angels has started reaching the outside and it risks causing certain curiosity among the media. Here are our prophet's directives on this matter:\*

"My instructions concerning the press and the Order of Angels are to thank you for never accepting any interview on this topic.

If there are questions about the order of angels merely say that the Order of Angels is a religious order composed of Raelian women, that's all. We don't have to add anything else. We are there to speak of the messages... not to give pleasure to trouble makers."

You can contact me at all times for precisions or questions.

On the other hand, it appears to me that our prophet's order is clear.

A lot of love to you all!

TO BE !. To be pure, natural, true as can be our sister Bakeyla who is in charge of the Angels' Order in Africa.  
Thank you dear sister.

Martine L

TO BE L. Bakeyla is ...our sister, angels of Africa are... in this text imbued of humility, of simplicity, we feel the pure expression of love that lives within their hearts for our Dear Prophet, and for our Fathers the Elohim.

Africa, land of the sun, is in the image of our sisters, full of purity, innocence and rare and infinite beauty.

✓ **Meeting of the Angels of Africa,.....**

During the African seminar, the Angels met each day. and talked about qualities and learnt from each other.

So, each one explained how she felt being an angel and how she would like to live this new life and what she would like to learn.

That's how, during the African seminar, we learnt to serve our Bishop Guides so that, we would feel more at ease when we would be serving our Beloved Prophet. We also learnt how to pray."

Intern and Strictly Confidential News letter from the Angel's Order of Rael

January 13th 54 aH ~ N° 20

#### 3. Angelic Qualities

v Let's talk about harmony

Politeness is just a decoration, if we truly love, if we trust one another, we don't need decoration.

When Rael sends a mail, he only writes :  
"Hello Lear, can you do this...please...love Raël"

It's the same thing when we ask for something, we don't need to excuse ourselves but just say please, do it.

The one that receives the request should say thank you, thank you for giving me your trust.

I have plenty of things to do, but thank you for your trust and your request.

People mistake the speed of execution and harmony, they use harmony to justify doing things slowly, but in fact they are just lazy. It's easy to simply sit down and keep one's harmony, I'd rather see angels without make up than angeis with a great make up but no glass of water.

Laziness is good as long as v/e do what we have to do quickly, so we can appreciate having nothing left to do.

People use words in their own way, harmony is more important than the goal, the definition of harmonious people isn't correct.

Because of this word, people walk slowly even though we need speed.

Raël's definition of harmony is : "Quick, efficient, without any stress."

Angels need to move their wings very fast like hummingbirds. "The hummingbird is totally in harmony with its incredible speed.

It's the same thing for people who practice martial arts, breaking a board with one hand, if they don't have the speed with the harmony the board won't break. Quickness is very important.

#### 4. Inciting Vocations

✓ To join to create links and be closer to the women around us...

Today the year 2000 is approaching, I sometimes realise I am running after a goal that takes me away from what I really am: to be, to be the image of the Messages, of my Fathers the Elohim.

I think that in order to spread the Messages today, we've got to slow down and take better care of the people who surround us and particularly our sisters of the Earth. To be more conformed, to listen better, to get closer to them, to take the time to meet and get to know them and to listen to them.

Intern and Strictly Confidential News letter from The Angel's of  
Rael  
January 13th 54 aH ~ N° 20

"Life is beautiful..." Rael, Prophet of the infinite.

We must conform to this society of the 20<sup>th</sup> century, conscience is to be able to adapt to what we experience.

We must help these women who only understand a part of the message, be patient, help them make links with us, to teach them how to know us and to love us.

To achieve (his we must take time for ourselves, get together to "be" to take care of ourselves, to develop our Angel's qualities and be Angels for humanity. Thanks to humility, know how to give without waiting (for anything in return), give to others, to those who surround us so that they can discover us, appreciate us and one day become the Angels of tomorrow.

We must go out, go to them and get down from our beautiful mountains which sometimes can seem to be out of reach because they are too high, too fast. Let us share our values, spirituality and love with them.

Make friends and give them time and careful listening.

Create around us a universe of love in the image of our Fathers'.

## 5. Chosen of the Elohim

### ✓ Chosen and Sex!

Hello my sisters,

Here are two anecdotes of my life of Chosen of the Elohim...

One day, a man comes to me to excuse himself for a lack of respect towards me. Astonished, I asked him in what way he showed disrespect towards me, and he answers that he went around naked in front of me, and as I am a Chosen, I could therefore have been troubled to see him.

On another occasion at a guidesmeeting. I was dressed up " sexy " and one of the men said to me: " is it a test for you to get dressed sexy like that? "

In both cases, I of course answered by explaining how I live my sexuality and what it represents for me.

As the misunderstanding seems to me to be frequent (even on behalf of guides for I believe that it is not a question of "level " it's necessary to be a Chosen to really understand and feel what it's like, or to have received explanations to be able to understand what it is like), I propose to share with you my answers about my way of living and of considering " Sex ".

# ANGEL'S NEWS LETTER - ANGEL'S BEATHERS

International Strictly Confidential News Letter from the Angel's Order of  
" Rael  
January 13th 54 aH ~ N° 20

"Life is beautiful..." Rael, Prophet of the infinite.

It might make something resound in you and you may say to yourself: "But it's of course, what I feel too! "

I am not at all prudish or modest, even if I wish to be even more angelic, pure and virtuous (according to the dictionary, they all are synonyms, however they have nothing to do with one another!). The sight of a naked man does not disturb me at all. Why should it be? Should it awake a sexual desire in me which is prohibited to me? Not at all! If that was to be the case and that I experienced conflict and suffering against this desire, the problem would be for me and not at all for the naked man in front of me. He is perfectly free (and besides so am I) and he should not have even excused himself.

For me, there is no more " sex " in a naked man that in a bunch of flowers and I can also admire them both, beauties of the creation of the Elohim.

It is the same thing when I dress " sexy ". Others can see " sexual provocation " in it. My taste to dress like this is to simply emphasize my harmonious curves, to feel beautiful, feline, which is a sensual pleasure for me, choosing according to me and not for others.

Since I am a Chosen, my vision has really changed a lot.

I completely assume my sexuality by living it intensely, alone. So I see men and women like human beings, much more human than before.

More human for I no longer see in others a means of filling a need (or a desire) and do not expect them (especially men, " objects" of desire...) to play my games. But it is simply my vision which has changed., and that changes really everything.

What a release! What independence! What a saving of time and energy! What strength it gives me to no longer be dependant on others for my sexual satisfaction ! What fortune to be able to differently live my relation with others!

To those who say to me that I do live my sexuality completely, I answer that there is the same incomprehension as for a heterosexual who does not understand a homosexual because they are not "excited" or do not find " sexy " a human being of the "complementary " sex ('As if we were incomplete).

My orgasms are marvelous and I dedicate them to the Elohim as I dedicate all my joys and my whole life to them. To be a Chosen, it is a state of being, an attitude and also another vision of life.

For the men, who at another time would have been in my fantasies, now I feel a great deal of tenderness.

The message of the Elohim. that their name be sanctified, opened for me another way. in all the possible ways, by breaking two purely cultural paradigms: the one of the " relation of the couple " and the one of the "pure and asexual religious vocation ".

This message, by including a sexual dimension in the religious vocation, has as a matter of fact revealed in me what I had not been able to apprehend until now:

A deeply religious vocation binding me lovingly and carnally to our Creators the Elohim and to their Prophets.

There are the heterosexual women (who love men), the homosexual ones (who love women), and there are the religiosexual ones (Chosen of the Elohim).

A homosexual is not attracted by men and does not suffer from a deprivation of their love. A Chosen of the Elohim should not either have suffering or frustration because if it is the case, she would live it like a prison and not like a release or another possible way.

To be a Chosen is not an objective to be reached, it is simply a color which one expresses and who is neither better nor higher, but simply different.

Can we discover in ourselves this color by changing the vision about others and being autonomous in our sexuality?

Perhaps the comparison between hetero and homosexuality is only a different way to live sexuality; for if we know that being hetero or homo is genetically programmed, is this also the case for Chosen who discover this vocation?

I do not know, but in all cases I want to live it at 1000% and I wish you to live free and happy, whatever the color you choose! Whatever the way, I wish you to know a happiness equal to mine!

Elohim, thank you for so much Love, thank you for this marvellous gift! I love you more than my life.

Sophie B

## 6. Prayers and Meditations

✓ Words can destroy purity...

During the guide's seminar, on Sunday we were very enthusiastic about the discussion.

Rael said quietly, it is going to be 11 o'clock, it is time for the contact. Our Beloved Prophet closed his eyes and the guides followed.

The room filled itself of 30 seconds of silence, we heard the soft voice of Rael:

" That is sufficient, it does not need to be long, words can destroy the purity of our feelings. Just send your purest love "

The words of our Beloved Prophet touched me so deeply. It was the most marvellous contact that I had ever experienced.

When I opened my eyes, tears roiled down my face.

"Life is beautiful..." Raël, Prophet of the infinite.

I received a lot of questions as regards Angels and prayer.

Reel told us that Angels should pray all time, but sometimes we don't know how to do it.

Several Angels have created different prayers, it is marvellous. But, are we so concerned by the shape that we forget the truth and even the essence of it?

What Rael told the guides, in a few words was (he true sense of prayer. Thank you very much dear Beloved Prophet.

Most people try to pray through a level of thought that creates only the atmosphere, creating the atmosphere only stops conscience. Rael teaches us "to be".

It is a marvelous feeling just to trust the infinite and to reach the state of being where our love will reach the Elohim.

During every day of our life, when our reflections, our words, our movements, and every action become a prayer in itself, then we can say that we have become "real Angels".

Angels should pray all the time  
I send you my pure love.

### § To be an Angel

To be angel, it is to vibrate to the breach of wind to intoxicate oneself with the perfume of a rose, to go into ecstasy facing the beauty of a sunset.. to feel from the deepest of every cell the marvelous taste of an exotic fruit to become a symphony with the sound of a guitar... and even more, while practicing all these pleasures, while meditating, to feed the Infinite, that I am the infinite and that I become you.

There is no need for words, I feel all your thoughts better than if I was to hear them

To be angel, is also to hear someone's distress and offer him a hand. Merely, when I offer him this hand, this is not to make myself be loved by him... oh. no!... I offer him a hand to help him grow and to free himself of my help. ) offer him a hand to help him fly on its own and to detach himself from me.

To be angel, is to understand that this pi one: is so beautiful, that the human beings, creation of the Elohim. are good by nature and that the suffering is only generated by ignorance that will have made them hateful

"Life is beautiful..." Rael, Prophet of the infinite.

Then. I must smile, to give iove, to be patient and to cany the word of the Elohim everywhere it can be heard.

To be angel, is also to understand that the masculine values and the law of the strongest are excessively obsolete to open us the doors of the garden of Eden.

I must understand therefore that in each women we meet exists a piece of the big truth of the Elohim.

Then, I will hold their hands while telling them: "Come, my sisters, you are those who will be able to contribute in saving the world."

To be angel, is to praise and to pray our fattlers each day thanking them infinitely while getting ready to welcome them.

Thank you, my fathers, for this terrestrial paradise.

Thank, you, my fathers, for having created us in your image,

Thank you, my fathers, for having endowed us with this marvellous faculty of love,

Thank you, my fathers, for having included us in your big plan,  
[hank you. my fathers, for having chosen us for Levies of tomorrow,

Thank you, my fathers, and I commit myself, with all the strength of my love, to work so that your Chosen and Golden Ribbons offer

you, at your arrival, the most beautiful gift that the infinite can propose: PURE LOVE that doesn't expect anything in mum.

Mine will be just as strong man theirs and I will offer it to you in their shadow, it is true that only the youngest, the most beautiful., the most awaken among us deserve you.
