## WORDS OF THE LAST PROPHET

*Here are some notes taken during the speech given by our Beloved Prophet last week end in front of the assistant guides and the guides gathered at Sion. You will find the major part of this speech in Contact 252. This part is mostly for the structure members that is why you will find it only in the White Knights... Enjoy!!!*

A Prophet is a communicator. It is important because you have decided to help me transmit, therefore my problem is your problem as you are active actors, for the transmission of the Messages, of the truth, of the conscience. If sometime some of you understand wrongly, it is great, it allows you to measure how important it is to express yourself clearly so that the others understand you. When we hear a speech, we can be fast in saying 'it is stupid' or 'why is he saying this?', but we do not understand when the others do not understand us. « We see the straw in the neighbor's eye, but we don't see the beam in ours ».

If it happened that you understood wrongly, it's human. But you cannot be human, you cannot be stupid, because being human is being stupid, you have to be superhuman.

Earth is the planet of the stupid. How is it possible to bring Messages that are so clear and not be understood? It is not easy to be the Messenger on the planet of the stupid. You live it everyday. Therefore we should criticize ourselves, let see why we don't understand ourselves, why we understand wrongly, we must understand the value of the words. The spirit, the thoughts only take form with the words that we use and make vibrations, touch the ear and make new neuronal connections. I say the word 'apple' and some see a pear, a pumpkin, a banana, we live this everyday. If I say 'apple' and you see pear, ask yourself why, this will help you to transmit better with others.

I learned that one of my texts on terrorism was misunderstood by some of you and that some had seen in it encouragements to violence. Some haven't seen the apple. The levels 5 read the text and saw the apple. Some of you have seen something else. Ask yourself why, because it will be the same when you talk about the Messages.

The words fly away, but the writings stay. You should be vigilant when you read a text. Do not just read 3 words. Read every word to really understand. Remember the teaching about illusions during the seminars and put it in practice. Maybe you haven't read well the Message too? Are you there by mistake? after an illusionary reading? Maybe by reading them again you will find out that you are not at your place here? There was raelians like this who stayed 5, 6 years and flew away because they believed in spirits, in soul, etc. They did not read right. We can be deluded by everything, including ourselves.

An outside event can make one leave the structure. They could have had the illusion that it was their place to be a guide then think it was better to leave. And there are the ones who come back. I like the people who come back.

Some leave, reject, criticize and come back, it's beautiful, it's conscience. It is a mistake to leave, but it is conscience to come back. The ones who come back are almost dearer to the heart of the Elohim and to my heart. Of course, not if it happens 3 or 4 times. When we take a step backward, we always see better. But it's better to take a step backward staying inside the structure.

Regarding the text I wrote on terrorism, some have said 'Rael encourages violence'. If someone understands that, then he doesn't have his place in the structure and must leave; or apologize to himself, ask himself forgiveness to have deluded himself that way, because the absolute non violence of the Messages doesn't mean the refusal of self defense... . the continuation is in Contact 252... .
